I'm a graduate of Bachelor of Technology in Industrial Management, majoring in Electrical. My academic background has given me a strong foundation in both technical and managerial aspects, especially in areas like electrical systems, process optimization, and industrial operations. I've always been interested in how technology can improve efficiency and sustainability, which is why I'm excited to apply my skills in real-world industries like agriculture. I'm a proactive learner, detail-oriented, and I enjoy working on solutions that improve systems and processes. Now, I'm looking forward to starting my career and contributing to a field where I can make a meaningful impact.

General information

Considering industry	Hotel og restauration
Type of employment	Skilled worker

Industry	Landbrug
Profession	Field worker
Branche	Agriculture

Education

Type of education	Erhvervsskole
Uddannelsesstatus	Færdiguddannet
Educational institution	University of Southern Mindanao Kidapawan Campus
Faculty, specialty	Bachelor of Technology in Industrial Management Major in Electrical
Land	Filippinerne
Period	from 01.06.1997 to 01.04.2001

Beskrivelse

I graduated with a Bachelor of Technology in Industrial Management, majoring in Electrical. My education provided a strong combination of technical knowledge and management principles. On the electrical side, I gained skills in electrical systems design, maintenance, control systems, and industrial automation. At the same time, the industrial management focus gave me a solid understanding of operations management, production planning, quality control, and organizational leadership. This combination has equipped me to work effectively in technical environments while also understanding the bigger picture of business operations and efficiency. My studies also emphasized problem-solving, safety practices, and continuous improvement, all of which I am eager to apply in a real-world setting.
