About Me

My name is Augustine Balogun, a versatile and results-oriented professional with a strong background in engineering, project planning, and quality management, complemented by hands-on technical expertise across multiple industries. I hold a Bachelors degree in Metallurgical and Materials Engineering from Nigeria and a Masters degree in Industrial Engineering from Moi University, Eldoret, Kenya, with international exposure that strengthens my adaptability. I am also a certified Six Sigma Black Belt professional.

My career experience spans roles as a Production Supervisor in my current role at Meat Emporium Limited, Project Planner and Scheduler in oil and gas construction, and a Quality Engineer. I also bring strong practical knowledge in machining, mechanical test sample preparation, and materials testing with proficiency in operating a range of machines.

In addition, I am a Level II Non-Destructive Testing (NDT) Inspector, certified and experienced in Radiographic Testing (RT), Ultrasonic Testing (UT), Dye Penetrant Testing (PT), and Magnetic Particle Testing (MT). I also hold a Pipe Fitting certification with hands-on experience in piping installations, fittings, and maintenance. Beyond my engineering expertise and my daily 9-5 job, I also manage my own farms, where I raise birds and cultivate crops, further demonstrating my versatility and ability to work in the agricultural sector.

I am open to opportunities in manufacturing companies, construction projects, oil and gas, agricultural sectors, and research institutions, and I am willing to take on both skilled and unskilled roles abroad. My combination of academic qualifications, technical certifications, and practical skills equips me to deliver value across diverse environments.

Key Strengths:

Project planning, controls, and scheduling (Primavera P6, MS

Project)

Quality assurance, quality control, and process improvement
Level II ASNT NDT Inspection (RT, UT, PT, MT) with hands-on field experience

Certified pipe fitter with practical piping installation and maintenance expertise

Machining, mechanical sample preparation, and material testing skills

Experience in meat industry (poultry, beefs, etc)

Strong problem-solving, teamwork, and adaptability in cross-cultural settings

I am motivated to relocate and contribute effectively in international opportunities, bringing dedication, discipline, and a strong work ethic to any role.

| General information

Considering industry	Engineering
Type of employment	Unskilled worker
Age	34 (1991)
Original nationality	Nigeria
EU Citizenship	No

| Location of residence

Country of residence	Nigeria
City of residence	Port Harcourt
Staying type	I have a citizenship

| Work Experience

Work period	from 01.02.2025 to 01.10.2025
Країна	Nigeria
Industry	Food technology
Спеціалізація	Production Supervisor
Сектор	Фабрика
Responsibility	

Supervise and coordinate daily meat processing operations in line with food safety and quality standards.
Plan production schedules, monitor line performance, and minimize downtime.
Train and motivate staff to achieve targets and maintain high productivity.
Conduct inspections of raw materials and finished products to ensure quality compliance.
Maintain records, prepare reports, and drive process improvements to reduce waste and optimize resources.

Education

Type of education	Вища освіта магістр
Статус навчання	в процесі
Educational institution	Moi University, Eldoret Kenya
Faculty, specialty	Engineering
Країна	Nigeria
Period	from 01.03.2023 to 01.12.2025

Опис

I had my Masters degree in Industrial Engineering from Moi university in Eldoret Kenya. I have defended my thesis and submitted, only waiting for graduation which comes up on 19th Dec. 2025.

Note: I choose Nigeria has a country here because I couldn't find Kenya there.

Type of education	Вища освіта бакалавра
Статус навчання	Закінчено
Educational institution	Federal University of Technology Akure
Faculty, specialty	Engineering
Країна	Nigeria
Period	from 01.11.2012 to 01.11.2017

Опис

Had my bachelors degree in Metallurgical and Materials Engineering with a Second class upper division.
